

Jebel Sifah Heights

Offering breathtaking sea and golf course views, the Jebel Sifah Heights is a meticulously designed residential neighborhood that spreads across 365,000 sqm. The development includes over 600 freehold properties offering homeowners a choice of studios, one, two and three bedroom apartments and lofts as well as luxury twin houses. As one of the larger residential neighborhoods in Jebel Sifah, the Jebel Sifah Heights will be constructed with a phased approach. The first phase, launched in November 2017, spans 90 freehold apartments across 10 buildings.

The sea view units in Phase I include two and three bedroom apartments which range from 116 sqm to 151 sqm. All two bedroom apartments have large terraces while the ground floor units enjoy gardens of various sizes. The three bedroom units include loft level and roof-top space. The golf view apartments range from studio, one, two and to three bedroom apartments with sizes from 62sqm to 149 sqm.

Upon completion of all phases of Jebel Sifah Heights, homeowners will also enjoy a variety of leisure facilities, such as the Super Spray Park, an open-air gym, a meditation garden, a children's play hills area and an infinity pool.
